BRIDGE FOR DESIGN

A detailed photograph of a rustic interior. In the center is a brick fireplace with a warm fire burning. Above the mantel sits a sculpture of a turkey. The mantel itself is made of rough-hewn wood. On either side of the fireplace are tall wooden bookshelves filled with books. In the foreground, a round, light-colored stone coffee table holds a vase of yellow tulips, a small bowl, and some papers. Several chairs are arranged around the room: a floral-patterned armchair on the left, a dark wooden chair with a cushion, and a white-painted wooden chair on the right. The walls are made of white-painted brick with some peeling paint, and the floor is made of light-colored wood.
